

TRAUMA NURSE CORE COURSE

The Trauma Nursing Core Course (TNCC) is designed to provide core-level trauma knowledge and psychomotor skills associated with the delivery of professional nursing care to the trauma patient.

Upon completion of the TNCC course, the learner should be able to:

- a. Identify the common mechanisms of injury associated with trauma.
- b. Describe the pathophysiologic changes as a basis for signs and symptoms.
- c. Describe the nursing assessment of patients with trauma
- d. Based on the assessment data, identify appropriate nursing diagnosis and expected outcomes for the trauma patient
- e. Describe the appropriate interventions for patients with trauma.
- f. Describe mechanisms for evaluating the effectiveness of nursing interventions for patients with trauma.

There will be no refunds for this program. Substitutions will be accepted with notification prior to the event.

This course is sponsored by Good Samaritan Hospital in cooperation with the Nebraska Emergency Nurse Association. The Emergency Nurses Association is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
